

HOLLAND ENGINEERING INC

STORMWATER RECERTIFICATION

Stormwater System 5 Year Inspections & Certifications Lunch and Learn

**Holland Engineering Inc is pleased to offer a
Stormwater recertification *Lunch and Learn* program**

This free program is offered to your property managers to assist them in understanding the requirements for stormwater recertification.

Multi-family residential and commercial properties are required to have their drainage systems inspected by a professional, licensed engineer every 5 years. The inspections include;

- ✓ Catch basins, drainage manholes and piping
- ✓ Lake and canal banks
- ✓ Drainage pipe outfalls
- ✓ Drainage retention areas and swales

Our program will assist your property managers with

- Understanding the terminology
- Understand why proper maintenance of the drainage system is required
- Educate them in the procedures of the inspection and certification process
- Finding qualified contractors to make any necessary repairs

*Contact us today to schedule a free lunch and learn program for your office
Sandwiches, chips and drinks are provided compliments of Holland Engineering Inc
